

INSTRUCTIONS

1. Paint the background of the mug using a fan brush and 3 coats of Blush.
2. Use your medium brush to apply strawberries (they're heart shaped) all over the plate with Red Hot. Make sure to change the direction they're facing and make some go off the edge of the cup.
3. To make the leaves on the strawberries, use your small brush and apply 2 heavy coats.
4. Dip your Sponge dotter in Snowflake and tap off the excess paint. Apply your dots wherever you'd like them. Let them dry and put on a second layer.
5. When the strawberries are dry, use your detail writing bottle to add the white seeds.

TIPS

- When using the writer bottle, apply gentle pressure to get small seeds.
- The shape of the leaves are two parentheses touching to make a single leaf, then put one more of those on each side.
- Be generous with the paint to get the most even color.
