## INSTRUCTIONS

1. To apply the silkscreen, we need to use Blush paste (thicken Blush paint using a little silkscreen medium until it's the consistency of pudding).
2. Apply the silkscreen using either a squeegee or your finger with the stripes going vertically on the plate.
3. Rinse and dry your silkscreen. Then apply it again but this time turn it so the stripes are going horizontally on the plate. Voila, plaid!
4. Use your medium brush to apply strawberries (they're heart shaped) all over the plate. Make sure to change the direction they're facing and make some go off the edge of the plate.
5. To make the leaves on the strawberries, use your small brush and apply 2 heavy coats.
6. When the strawberries are dry, use your detail writing bottle to add the white seeds.

## TIPS

- When using the writer bottle, apply gentle pressure to get small seeds.
- The shape of the leaves are two parentheses touching to make a single leaf, then put one more of those on each side.
- Be generous with the paint to get the most even color.
